PROFILE SUMMARY

Final-year MCA student and aspiring Flutter Developer with hands-on experience building cross-platform mobile apps using Flutter and Dart, integrating RESTful APIs, and building responsive, user-friendly UIs. Built a full-stack banking app with a Flutter front end and PHP/MySQL back end, handling authentication, secure sessions, and transaction flows. Strong foundation in OOP, Data Structures & Algorithms, SQL databases, debugging, and problem-solving, with experience in Git/GitHub, Agile workflows, and code reviews. Also skilled in Python (Django), Java, and Laravel. Certified in Java, Python, SQL, and DSA, and eager to build clean, performant, and maintainable mobile applications as a Flutter Developer.

EDUCATION

Master of Computer Applications (MCA) | Expected 2027 | L.J. University, Ahmedabad

1st Sem SGPA: 8.61 | 2nd Sem SGPA: 8.83

Bachelor of Computer Applications (BCA) | 2025 | Veer Narmad South Gujarat University

CGPA: 7.84

Higher Secondary Education (12th): 67.84% | **Secondary Education (10th):** 69.67%

TECHNICAL SKILLS

- **Programming Languages:** Dart, Java, Python, C, C++, PHP, C#
- **Web Technologies:** HTML, CSS, JavaScript
- **Mobile & Frameworks:** Flutter, Android, REST API Integration, Django, Laravel, Asp.net
- **Databases:** MySQL, Oracle, SQLite
- **Tools & IDEs:** Git/GitHub, Android Studio, VS Code, Android Emulator, IntelliJ IDEA, Visual Studio
- **Core Concepts:** Object-Oriented Programming, Data Structures & Algorithms, Responsive UI Design, Software Development Life Cycle (Agile/Scrum), Code Reviews & Documentation

PROJECTS

Online Banking System — Flutter, Dart, REST APIs, PHP, MySQL

- Developed a cross-platform banking app in Flutter (Dart) that consumes RESTful PHP APIs for registration, login, balance inquiry, fund transfers, and transaction history, backed by a MySQL schema with foreign-key integrity.
- Built responsive, reusable Flutter widgets and screens for the dashboard, transfers, and transaction history, with form validation, API error handling, and secured sessions against unauthorized access.

YouTube Video Summarizer — Django, MySQL, AI

- Designed, developed a Django-based web application in Python that turns a YouTube URL into a concise summary using AI-based NLP to condense 1,000+ word transcripts within seconds, cutting review time by ~70%.
- Modeled the MySQL schema for videos, summaries, and history, and added a chatbot that answers user questions about the video by pulling context from the transcript/summary.

Service Provider (Home Services Platform) — Laravel, MySQL

- Built a Laravel service-marketplace app for 20+ home-service categories with role-based dashboards for customers, providers, and admins, backed by a MySQL schema tracking each request's status end-to-end.
- Added email OTP-based login and a feedback system for users to rate completed services, with an admin panel to monitor provider performance.

CERTIFICATIONS

- **Java — HackerRank** | Completed: March 29, 2026
- **Python — HackerRank** | Completed: August 16, 2026
- **Python — Coursera (packt)** | Completed: November 18, 2025
- **SQL — HackerRank** | Completed: June 23, 2026
- **Problem Solving — HackerRank** | Completed: May 31, 2026
- **Advanced Data Structures & Algorithms — Coursera (packt)** | Completed: May 31, 2026
- **Git and GitHub Complete Master Class — Coursera (packt)** | Completed: November 14, 2025
- **DevOps Essentials and Version Control with Git — Coursera (edureka)** | Completed: September 24, 2026

LEADERSHIP & EXTRACURRICULAR

- **National Cadet Corps (NCC) Cadet** — Received the Best Leadership Award (2024–2025) for coordinating and motivating fellow cadets during training and camp activities, demonstrating discipline, teamwork, and initiative.
