

VISHAKHA PARESHKUMAR PATEL

Aspiring Software Developer

Ahmedabad, Gujarat, India | +91 63557 48871 | vishakhapatel@gmail.com

[LinkedIn](#) | [GitHub](#) | [LeetCode](#) | [HackerRank](#)

PROFILE SUMMARY

Final-year MCA student with strong foundations in Java, Python, C and C++, and hands-on experience in web development and mobile application development, API integration, and database design. Took a project from concept to real-world deployment, including a clinic management system currently in active use by a practicing doctor. Consistent academic record (Rank 1 in BCA; 9.12 CGPA) with a strong grasp of Data Structures, Algorithms, and Object-Oriented Programming. Seeking a Software Developer role to contribute to production-grade systems.

EDUCATION

Master of Computer Applications (MCA) | *LJ University, Ahmedabad* | *Expected 2027*

SGPA: 9.65 (Semester 2) — Currently Pursuing

Bachelor of Computer Applications (BCA) | *Veer Narmad South Gujarat University* | *2025*

CGPA: 9.12 — Rank 1 in BCA (Final Result)

Higher Secondary (12th) & Secondary (10th) | *CBSE*

12th: 92.6% | 10th: 88%

TECHNICAL SKILLS

Languages: Java, Python, C++, C, Kotlin, PHP, C#

Web: HTML, CSS, JavaScript

Frameworks: Flutter, Django, Flask, Laravel, .Net

Databases: MySQL, PostgreSQL, Oracle, SQLite

Tools & IDEs: Git/GitHub, VS Code, IntelliJ IDEA, Visual Studio 2022, Android Studio

Core Concepts: Data Structures & Algorithms, Object-Oriented Programming

PROJECTS

Clinic Management System — Deployed in Production | *C#, PostgreSQL, Visual Studio 2022*

- Developed patient record management and medicine inventory modules; implemented prescription/medical history storage and bill generation with payment tracking
- Added profit history tracking and reporting — currently deployed and in active use by a practicing doctor

Online Attendance Management System | *Flutter, Python, MySQL, Android Studio*

- Built a geofenced, face-recognition attendance system with multi-role authentication for Admin, Faculty, and Student users
- Faculty-generated 4-digit session codes restricted to a geofenced radius; real-time attendance percentage and history reports

AI Interview Questions Generator | *Django, Gemini API*

- Built an AI-powered web app generating interview questions via Gemini API, configurable by role, format (MCQ/Q&A), count, and difficulty
- Added user registration with email verification, answer-reveal toggle, session history, and per-session PDF export

CERTIFICATIONS

- Python 3 from Beginner to Expert — Learn Python from Scratch Specialization (Coursera)
- Git and GitHub Complete Master Class Specialization (Coursera)
- Advanced Data Structures and Algorithms (Coursera)
- Object Oriented Programming in Java (Coursera)
- Advanced Python and Professional Development (Coursera)
- Databases and SQL for Data Science with Python (Coursera)
- HackerRank: Java (Basic), Python (Basic), SQL (Basic, Intermediate, Advanced), C# (Basic)
