PROFILE SUMMARY

Final-year MCA student with strong foundations in Python and its ecosystem (Django), alongside Java, C, C++, REST APIs, SQL, PHP, and MySQL. Hands-on experience developing Python-based applications and services, writing clean and maintainable code, designing relational databases, and integrating APIs and AI-powered features. Strong knowledge of Data Structures & Algorithms, OOP, database management, debugging, and problem-solving, with project experience collaborating across teams to deliver web and cross-platform applications in agile environments. Certified in Python, Java, SQL, and DSA and eager to build efficient, scalable, and maintainable solutions as an entry-level Python Developer.

EDUCATION

Master of Computer Applications (MCA) | Expected 2027 | L.J. University, Ahmedabad

1st Sem SGPA: 8.61 | 2nd Sem SGPA: 8.83

Bachelor of Computer Applications (BCA) | 2025 | Veer Narmad South Gujarat University

CGPA: 7.84

Higher Secondary Education (12th): 67.84% | **Secondary Education (10th):** 69.67%

TECHNICAL SKILLS

- **Programming Languages:** Python, Java, C, C++, PHP, C#
- **Web Technologies:** HTML, CSS, JavaScript
- **Frameworks & APIs:** Django, REST APIs, Laravel, Flutter, Asp.net
- **Databases:** MySQL, Oracle, SQLite
- **Tools & IDEs:** Git/GitHub, VS Code, IntelliJ IDEA, Visual Studio, Android Studio, Python IDLE, Spyder, Jupyter Notebook
- **Core Concepts:** Data Structures & Algorithms, Object-Oriented Programming, Software Development Life Cycle (Agile/Scrum), Code Reviews & Documentation

PROJECTS

YouTube Video Summarizer — *Django, MySQL, AI*

- Designed, developed a Django-based web application in Python that turns a YouTube URL into a concise summary using AI-based NLP to condense 1,000+ word transcripts within seconds, cutting review time by ~70%.
- Modeled the MySQL schema for videos, summaries, and history, and added a chatbot that answers user questions about the video by pulling context from the transcript/summary.

Service Provider (Home Services Platform) — *Laravel, MySQL*

- Built a Laravel service-marketplace app for 20+ home-service categories with role-based dashboards for customers, providers, and admins, backed by a MySQL schema tracking each request's status end-to-end.
- Added email OTP-based login and a feedback system for users to rate completed services, with an admin panel to monitor provider performance.

Online Banking System — *Flutter, PHP, MySQL*

- Built a cross-platform banking app in Flutter with RESTful PHP APIs for registration, login, balance inquiry, transfers, and transaction history, backed by a MySQL schema with foreign-key integrity.
- Secured sessions against unauthorized access and built responsive Flutter UI for the dashboard, transfers, and transaction history.

CERTIFICATIONS

- **Java — HackerRank** | Completed: March 29, 2026
- **Python — HackerRank** | Completed: August 16, 2026
- **Python — Coursera (packt)** | Completed: November 18, 2025
- **SQL — HackerRank** | Completed: June 23, 2026
- **Problem Solving — HackerRank** | Completed: May 31, 2026
- **Advanced Data Structures & Algorithms — Coursera (packt)** | Completed: May 31, 2026
- **Git and GitHub Complete Master Class — Coursera (packt)** | Completed: November 14, 2025
- **DevOps Essentials and Version Control with Git — Coursera (edureka)** | Completed: September 24, 2026

LEADERSHIP & EXTRACURRICULAR

- **National Cadet Corps (NCC) Cadet** — Received the Best Leadership Award (2024–2025) for coordinating and motivating fellow cadets during training and camp activities, demonstrating discipline, teamwork, and initiative.
